CERTIFICATE IN THE CASE OF A NON-COMPANY:

Consequent on the decision of the Madras High Court in a certain case, the Central Board of Revenue issued a circular containing instructions to the effect that in the case of an assessee other than a company the Auditor's report or certificate should not be given more credence than the certificate of the assessee's own accountant and that wherever necessary the income-tax officers should not hesitate to go behind the "audited" profit and loss account and balance sheet in order to probe into the accuracy thereof. As this affected the entire profession, a representation was made by the Institute to the Central Board of Revenue that where a certificate in a non-company case was unqualified ard given after due audit of the accounts by a Chartered Accountant, it should be treated ordinarily with the same consideration that would be given to a certificate in the case of a company. The Board has accepted this suggestion and issued a revised circular to that effect, which has been reproduced on pages 541-542 of "The Chartered Accountant" for June 1955.

TARIFFS

No. 8(3)-T.B./55.—The Tariff Commission has submitted its report on the continuance of protection to the Sodium Thiosulphate, Sodium Sulphite and Sodium Bisulphite Industries beyond the 31st December, 1955, on the basis of an enquiry undertaken by it under sections 11(e) and 13 of the Tariff Commission Act, 1951. Its recommendations are as follows:—

- Protection to the Industry may be withdrawn after expiry of the present period of protection which is upto 31st December, 1955.
- (2) The quality of the indigenous sodium thiosulphate, sodium sulphite and sodium bisulphite is satisfactory. The industry should, however, take all necessary steps to remove the various deficiencies pointed out by consumers and endeavour, meanwhile, to adhere very strictly to the tentative Indian Standard Specifications formulated in 1950.
- 2. Government accept recommendation (1) and will take steps to implement it in due course.

- 3. The Tariff Commission has observed that the imposition of normal revenue duties applicable to unspecified chemicals will meet the needs of the industry.
